Dated: 04-10-2019

Message

The establishment of the Anti-Corruption Bureau (ACB), J&K has been one of the key elements of the J&K Government's Mission for Development and Good Governance to tackle and eradicate corruption in a more effective and meaningful manner.

ACB, J&K is launching a new website with the domain name www.jkacb.nic.in to provide a user friendly platform as an interface between the ACB and the citizens to create awareness about corruption. The website will host information about ACB and its functioning and about anti-corruption laws.

The website will also enable the ACB to receive information /inputs about alleged illegal activities and irregularities as also suggestions from informed citizens on improving anti-corruption work.

I hope that the people will come forward to support the efforts of the Government in bringing further probity and transparency in the functioning of public offices.

I wish Director ACB, J&K and his team success in their endeavours.

(B V R Subrahmanyam)
